All 7 Chakras (Root Chakra to Crown Chakra) that are present in human body comes under the territory of Kaal Niranjana.

Meditation onto these chakras (plexuses) can only generate immense physical powers which in reality are the "Mind Powers" (also known as Divya Shakti's). We cannot generate true "Spiritual Powers" (Aadhyatmik Shakti's) of a Soul by meditating onto any of the 7 Chakras.

Kaal Niranjana (Mind-Mann) resides in Sahasrar Chakra (Crown Chakra) from where he regulates every individual being (except Satguru) in this mortal world. No individual Soul (our own true-self) can liberate from the territory of universe (3 lok's) even by meditating onto any of the 7 Chakras which is the creation of Kaal Niranjana.
